

JACOB DIAMOND

PENTESTER, OSCP

I have been working in the IT industry for almost 3 years. I am currently a penetration tester. Being a penetration tester provides a challenge where I get to explore new ways to find vulnerabilities and identify new avenues for improvement. My passion for these challenges drive me to continuously learn about cybersecurity in general and new hacking techniques.

WORK EXPERIENCE

PENTESTER

Cyberswat

June 2021 - Present

My tasks are separated into 4 parts : web application pentest, internal active directory pentest, OSINT/Dark Web research and internal tool development.

Web application pentest :
